In Foster Shannon's eighth book, he has written the essential sourcebook for Christians to strengthen one's faith, providing a more informed understanding of Christianity for those still not sure, and challenging non-believers to question their choices.

Throughout his 50+ years of pastoral experience, questions have been asked and theories challenged about Christianity. Doctor Shannon's insightful answers to these often asked questions are now shared in this book. The thirteen chapters focus on the worthiness and reliability of the Bible, the future of Christianity and how to live a Christian lifestyle in today's secular world.

## Examples of key questions include:

*Why do many intelligent people reject Christianity?*

*How should Christians live in an increasingly secular world?*

*What will bring spiritual renewal to the individual and to the church?*
